The Ontario Highway Transport Board Act

POLICY STATEMENT

ITEM:

This is an amendment to and should be read in conjunction with the Policy Statement issued on November 19, 1979 with respect to Section 8 of Regulation 632 under *The Ontario Highway Transport Board Act*. The said Section 8 reads as follows:

8.—(1) The Board may, in its discretion, publish notice of an application or reference in THE ONTARIO GAZETTE without fixing a day for a hearing.

(2) If no objection is served and filed in the manner prescribed by section 5 within twenty-nine days of the publication, the Board may dispose of the application or reference summarily.

(3) If an objection is served and filed within twenty-nine days of the publication, the Board shall fix a date for the hearing with notice to all parties, and the procedure is thenceforth the same as for a proceeding to which this section does not apply.

OBJECTIVE:

To improve the Board's scheduling process and to reduce the number of public hearings.

BACKGROUND:

Section 8 of Regulation 632 under *The Ontario Highway Transport Board Act* provides, among other things, that the Board may dispose of an application without a public hearing where notice of the application has been published in THE ONTARIO GAZETTE without fixing a date for hearing and no objection to the application is served and filed within 29 days of the publication.

The current policy of the Board is to publish notice pursuant to Section 8 for all applications, with the

exception of Class 'R' and 'W' applications. When no objection is filed, the following may be disposed of without a public hearing provided that they are supported by appropriate documentation:

- Public Vehicle school bus;
- Applications for reinstatement of operating licences received on or before September 30th in the year of expiry and where accompanied by an interim application supported with the appropriate affidavits;
- applications for corridor authority through the Province of Ontario when accompanied by permanent complementary authorities from the jurisdictions of origin and destination;
- Class 'E' applications involving a change of milk producers for and on behalf of the Milk Marketing Board or cream products for and on behalf of the Ontario Cream Marketing Board;
- applications for transfer of shares or operating licences in most situations where the consideration for the sale is less than one (1) million dollars and there exists no other reason for the Board to review the transfer at a hearing;
- Class 'D' applications;
- other miscellaneous matters of a normally routine nature.

In THE ONTARIO GAZETTE of May 3, 1980 the Board advertised a special meeting to review the use of Section 8 advertising of applications. The meeting was held on June 6, 1980, and the following policy statement has taken into consideration the oral and written submissions put forward at that meeting.

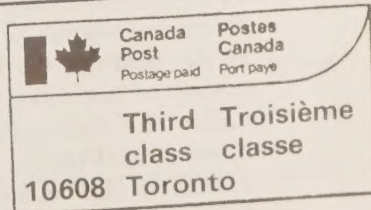

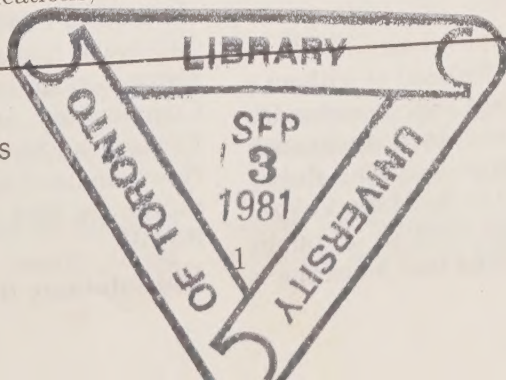

POLICY:

The Board will continue to publish notice pursuant to Section 8 for all but Class 'R' and 'W' applications.

The Board will extend its practice of disposing of unopposed applications without a public hearing to include Class 'E', 'F', 'FS' and 'T' applications and

extra-provincial applications for named shippers or named commodities.

The following procedure will apply to applications published pursuant to Section 8:

- (a) an applicant may be requested to clarify the terms of the application before publication in THE ONTARIO GAZETTE;
- (b) an applicant may be required to file documentation with respect to the application (e.g. agreement of purchase and sale, school board contract, complementary authority, etc.) before publication in THE ONTARIO GAZETTE;
- (c) when the application is in an acceptable form for publication and appropriate documentation has been filed, it will be published pursuant to Section 8;
- (d) to assist the Board in scheduling a hearing when necessary, an applicant will be requested to advise the Board of the following matters on a card provided at the time of publication:
 - (i) length of time required to present applicant's case,
 - (ii) number of witnesses expected to be called,
 - (iii) dates upon which an applicant or his counsel is unable to attend a hearing;
- (e) where an application is opposed within 29 days of publication, a hearing will be scheduled on notice to the parties without further advertisement. Scheduling can be spoken to at the scheduling meeting held each Thursday in Hearing Room No. 1 at the Board Offices, 151 Bloor Street West, 10th Floor, Toronto, or by writing to the Secretary of the Board at the same address;
- (f) where an application is not opposed within 29 days of the publication and is in the category of applications eligible to be disposed of without a public hearing, a request will be mailed to the applicant or his solicitor for affidavits in support of the application to be received on or before a certain date. If appropriate documentation is not received within the specified time, the matter will be set down for a public hearing on notice to the applicant.

Applicants anticipating no opposition to their applications are encouraged to prepare affidavits in support during the 29 day advertising period to enable prompt filing of this material with the Board and an expeditious final disposition.

In addition to those unopposed applications in categories eligible to be disposed of without a public hearing, the Board will consider disposing of any other unopposed application under *The Public Vehicles Act*, *The Public Commercial Vehicles Act* or the *Motor Vehicle Transport Act* (Canada) without a public hearing where it is satisfied that a hearing is

unnecessary to establish public necessity or convenience.

It should be noted that publication of application pursuant to Section 8 does not guarantee disposition without a public hearing or a grant of the application.

EFFECTIVE DATE:

January 1, 1981.

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on December 27, 1980. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to the approval to proceed with the undertaking.

I have considered the purpose of the Act and the environmental assessment of the undertaking as accepted by me and the submissions received prior to the environmental assessment being accepted.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions given on the attached schedule.

REASONS:

The reasons for giving approval are:

- (1) I received four submissions and no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated September 30, 1980 and no submissions or notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Acceptance of the Environmental Assessment*, dated December 12, 1980. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called. Two submissions were from: the proponent, requesting changes to condition of approval No. 2 recommended in the review; and the Municipality of Metropolitan Toronto, requesting a change to condition 1 (a). Submissions expressing support for the environmental assessment as modified by the conditions recommended in the review were received from the Regional Municipalities of Durham and Haldimand-Norfolk. I consider the changes suggested by the former two submissions to be reasonable and the amended conditions are included on the attached schedule.
- (2) The environmental assessment together with the Government review and the attached conditions sufficiently fulfill the purpose of the Act, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

Dated at Toronto, the 27th day of December, 1980.

HARRY PARROTT,
Minister of the Environment.

Approved by
O.C. No. 3436/80

CONDITIONS OF APPROVAL

The approval applies only to the undertaking as described in the Ontario Hydro EA (April, 1979, Revision 1) except that the class definition given in Part A, Section 2 of the review shall apply, provided that the projects are planned and implemented in the manner

outlined in the EA and in the "Site Restoration and Construction Guidelines" and subject to these Conditions of Approval.

However, particular Ministries may reach agreements, in writing, with Ontario Hydro that they need not be contacted, at this stage, for certain types of projects. Any such written agreement shall be filed in the Public Record for this undertaking. At this stage Hydro shall also:
 - (a) notify each potentially affected Local, Regional, District and Metropolitan Municipality, and identify any of its Official Plan policies concerning environmental matters that may be affected by the project (such Municipalities are to be considered as part of the "public" in the rest of these conditions);
 - (b) where the study area includes any part of the area under the jurisdiction of the Niagara Escarpment Commission, notify the Commission and take account of any features of the Proposed Plan for the Niagara Escarpment or, if it has been approved, the Niagara Escarpment Plan;
 - (c) notify any Conservation Authorities which have jurisdiction over watersheds that may be affected by a project; and
 - (d) include amongst the specific public groups which may be invited to take part in Ontario Hydro's external working committee for a project a group concerned with the protection of heritage resources, where one exists.
- (2) Ontario Hydro shall:
 - (a) include in the notification given to the potentially affected and interested public and Provincial Agencies of a proposed study in a particular area (stage 3.3.4 in the Class EA process, the "Announcement of the Study"), information as to the system need for the proposed project, the options available, the area that Ontario Hydro proposes to study and the rights given to the public under this Class EA approval or advice as to how this information may be obtained;
 - (b) when giving final notification to the Provincial Ministries and Agencies and the public that a specific project has been established (the beginning of stage 3.5 in the Class EA process), ensure that the Provincial Ministries and Agencies which have indicated a continuing interest in the project and the directly affected public are informed;
 - (c) include in the notification pursuant to Condition 2 (b) a description of the selected project and advice that comments on the selected project should be received by a specified person by a given date and that environmental study information is available for inspection at specific locations and that it describes the general location of the selected project;

- (d) begin the property acquisition for or the construction of any project only after at least 30 days have expired following the date on which final notification of the specific project was given to interested Provincial Ministries and Agencies and the directly affected and interested general public; and
 - (e) prepare an Environmental Report which shall be filed with the Environmental Approvals Branch of the Ministry of the Environment, placed in the Public Record and be made available to those receiving the final notification pursuant to Condition 2 (b) (the Report shall describe the need for the project, alternatives considered, the environment to be affected, the expected effects on the environment, the method of evaluating the environment and the alternatives and the mitigation measures that are proposed).
- (3) Ontario Hydro shall:
- (a) take account of the comments made in the review regarding the "Construction and Site Restoration Guidelines" in preparing an amended version of it not later than three months following the date on which approval of the undertaking is received under the Act;
 - (b) develop a monitoring program on the effectiveness of the "Construction and Site Restoration Guidelines" in its application to specific projects, in order to improve it; and,
 - (c) submit the "Construction and Site Restoration Guidelines", including any changes made during the monitoring program, to the Minister of the Environment for approval at the same time as, and as part of, the submission of the revised Class EA as set out in Condition 4.
- (4) Ontario Hydro shall carry out a re-evaluation of the Class EA covered by this approval, make appropriate revisions, and submit the revised environmental assessment for review under the Act by January 1st of the fourth complete year after approval.
 - (5) This approval shall terminate on the later of:
 - (a) the earlier of,
 - (i) the date on which approval of the undertaking under a new EA submitted as a result of the re-evaluation required by Condition 4 is received under the Act; and
 - (ii) January 1st of the fifth complete year after approval; or
 - (b) such later date as the Minister specifies by Notice in writing to the proponent and in THE ONTARIO GAZETTE.
 - (6) Ontario Hydro shall, for this undertaking, adhere to the provisions of the Protocol for Community Noise Control. The draft version of the Protocol shall be submitted to the Environmental Approvals Branch of MOE for placing in the Public Record no later than 30 days after the date on which approval of the undertaking is given.
 - (7) Ontario Hydro shall comply with "Property Policies and Practices for High Voltage Transmission Line Rights-of-Way and Station Sites, August 22, 1977" as amended from time to time by Ontario Hydro.
 - (8) File any amendments and improvements to the Guidelines referred to in Condition 3, the draft version of the Protocol referred to in Condition 6 or the policies referred to in Condition 7 with the Environmental Approvals Branch of the Ministry of the Environment for placing in the Public Record.

THE ASSESSMENT ACT

O. Reg. 4/81.

Equalization of Assessments Made Pursuant to Section 86 of The Assessment Act.

Made—January 6th, 1981.

Filed—January 6th, 1981.

REGULATION MADE UNDER THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE PURSUANT TO SECTION 86 OF THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1980 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1980 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1980 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the

year 1980 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1980 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1975, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 42 or 43 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 42 or 43 of the Act. O. Reg. 4/81, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1980 for taxation in the year 1981. O. Reg. 4/81, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 4/81, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in

accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 4/81, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or

THE ASSESSMENT ACT

O. Reg. 5/81.
Equalization of Assessments Made Pursuant to Section 86 of The Assessment Act.
Made—January 6th, 1981.
Filed—January 6th, 1981.

REGULATION MADE UNDER
THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE
PURSUANT TO SECTION 86 OF
THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide, for each municipality specified in the Schedule to this Regulation, assessments of real prop-

erty that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:

1. The proportion that the municipal and school taxes levied for the year 1980 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1980 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1980 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property

in that municipality, the municipal and school taxes that would have been so levied for the year 1980 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1980 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1978, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
 3. The total assessment, including assessments made under section 42 or 43 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
 4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 42 or 43 of the Act. O. Reg. 5/81, s. 1.
2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1980 for taxation in the year 1981. O. Reg. 5/81, s. 2.
3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 5/81, s. 3.

4. For the purposes of this Regulation, the factor to be applied to the market value, as determined in accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 5/81, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this clause; or
- (b) as conservation or recreational land.

CLASS 2

Property assessed as residential and comprising seven or more residential units, including vacant land municipally zoned principally for residential development described in this class.

CLASS 5

Annual Report—Criminal Code

JANUARY 1ST, 1979 TO DECEMBER 31ST, 1979

SECTION 178.23 CRIMINAL CODE

Pursuant to Section 178.22 (5) of the *Criminal Code* of Canada, the following is a Report for the period January 1st, 1979 to December 31st, 1979 relating to the authorizations for which agents specially designated in writing me for the purposes of Section 178.12 of the *Criminal Code* have made applications and the interceptions made thereunder.

As in previous years I have not designated any police officers for the purpose of making emergency applications. All applications for authorizations have been made by senior Crown Law officers who have been designated by me for the purpose pursuant to Section 178.12.

Section 178.22 (3) (b) of the *Criminal Code* requires me to set forth a general assessment of the importance of interception of private communications for the investigation, detection, prevention and prosecution of offences against the *Criminal Code* of Canada.

This is the fifth Annual Report tabled during my tenure as Attorney General. As in previous years I would like to express my view as to the importance of this investigative device in the enforcement of our criminal law.

I wish, moreover, to draw your attention to the following:

1. The number of authorizations granted has for the first time decreased, from 237 in 1978 to 202 in 1979, a 15% decrease. This I believe is significant in indicating that the law enforcement and other authorities are continuing the judicious use of this investigative device and that it is not a piece of legislation that will lead to a proliferation of authorizations or an undue invasion of the individual right to privacy.

2. Comments have been made in reference to the fact that no "refusals" have been reported in previous years. This year one refusal has been reported. I feel that this figure is acceptable in view of the comments that follow in relation to the procedure of the police and my agents before an application is made to a Judge.

The Federal Report indicated that there were three refusals for 704 authorizations in 1978. Alberta, British Columbia, Nova Scotia, New Brunswick, Manitoba and Saskatchewan indicate no refusals in their 1978 reports.

3. Section 178.22 (2) (c) offers some difficulty in interpretation as *all* authorizations are granted subject to certain terms and conditions in addition to those imposed by the legislation. The terms and conditions vary according to the nature of the investigation. Accordingly, we have reported the number of applications granted subject to terms and conditions as being the same as the number of applications granted.

4. Of the 202 authorizations granted in 1979 at least 59 of these were related to other authorizations or were the product of continuing investigations.

As I noted in previous reports, judicial interpretation of the relevant statutory provisions now preclude certain variations that previously would have been permitted in an application for a renewal of an authorization. Accordingly, certain of the 59 applications for authorizations referred to immediately above might, prior to judicial interpretation, have been treated as renewals as opposed to new authorizations. This is a significant factor to bear in mind when considering these statistics.

A resume of procedure supplied to me by one of our major forces indicates that an investigating officer must seek the approval of at least two Senior Police Officers before he is even allowed to consult one of my agents with a view to applying for an authorization. He then must seek the approval of a designated agent before it is presented to a Judge of the Supreme or County Court. Of course it is the duty of my agent to ensure that any application for an authorization comes strictly within the requirements of the statute before he presents the application to a judge for his decision.

Refusals by Senior Police Officers and by designated agents are numerous. The thoroughness of this screening procedure is indicated in the fact that no refusals were reported to this office on the judicial level in 1978 and only one refusal in 1979.

In my opinion the importance of the interception of private communications for the detection, prevention and prosecution of offences against the *Criminal Code* is without question.

With the restrictions imposed by the legislation itself, with the intense screening at the Police and designated agent level and with the final decision resting in the hands of a Judge of the Supreme or County Court I am confident that this valuable investigative tool is not being abused.

Most charges which arose as a result of Authorizations granted in 1979 are still before the courts or have not yet come before the courts. As a result, the number of resultant convictions appear comparatively low. These will be updated in the 1980 report.

The delay in the publication of this report is regrettable but unavoidable for the following reason. Authorizations obtained in late December of the previous year may not terminate until well into the current year. At that time begins the task of contacting all investigating officers to ascertain the present status of the interceptions. Unlike other provinces where all interceptions are made by the Royal Canadian Mounted Police and reported to a single officer, in this jurisdiction we have approximately 18 Police Forces reporting to this Ministry and more than 60 investigating officers who must be contacted before the task of compiling the statistics from in excess of 200 files can begin.

Breadner Transports Limited, 24547-K
P.O. Box 1148, Highway 26,
Meaford, Ontario N0H 1Y0.

Pursuant to Order in Council No. 2912/80 dated October 16th, 1980 wherein the Lieutenant Governor directed the Ontario Highway Transport Board to hold a new hearing of part (b) of the application of Breadner Transports Limited identified in the Board's file as No. 24547-K, a hearing will take place at the Board's Chambers, Britannica House, 10th Floor, 151 Bloor Street West, Toronto, on Tuesday the 17th day of March, 1981, at 10 o'clock a.m. (E.S.T.).

Part (b) of application No. 24547-K was originally published in THE ONTARIO GAZETTE dated October 27, 1979, as an application for an extension to Class 'C' privileges on Class 'A' public commercial vehicle operating licence No. A-637 as follows:

(b) To or from points within the area bounded and described as follows:

On the west by the western boundary of the County of Simcoe;

On the south by the southern boundaries of the Townships of Nottawasaga, Sunnidale and Vespra, all in the County of Simcoe;

On the east by King's Highway No. 27;

On the north by Nottawasaga Bay, the northerly boundary of the Township of Flos and a line running parallel to and extending the northerly boundary of the Township of Flos in a westerly direction to Nottawasaga Bay; and excluding the Village of Elmvale and the City of Barrie urban zone.

The purposes of the new public hearing are set out in the statement approved by Cabinet which is reproduced below along with the Order in Council.

Parties to the hearing wherein the Board first heard this matter shall be deemed to be parties to this hearing.

"WHEREAS Breadner Transports Limited has filed a Petition praying that the decision of the Ontario Highway Transport Board dated the 27th day of March, 1980 (whereby the Ontario Highway Transport Board refused an application by the Petitioner for a certificate for an extension to Class 'C' privileges on Class 'A' public commercial vehicle operating licence No. A-637:

- (a) to or from a place known as Angus located at the intersection of Simcoe County Road No. 10 and King's Highway No. 90; and
- (b) to or from points within the area described in the application (extending from Collingwood to King's Highway 27);

and the Board approved certificates for a number of Class 'D' privileges to be annexed to the said 'A' licence) be rescinded or varied by:

- (i) the issue of a certificate for Class 'C' privileges to and from the entire area applied for or, in the alternative;
- (ii) that the certificate be varied to permit Class 'D' privileges to and from the five named shippers and the balance of the certificates be varied to permit Class 'C' privileges to and from Collingwood.

NOW THEREFORE, pursuant to the provisions of Section 21 of *The Ontario Highway Transport Board Act*, R.S.O. 1970, Chapter 316, there shall be a new public hearing of part (b) of the application to the Ontario Highway Transport Board. The decision of the Ontario Highway Transport Board is otherwise confirmed.

The purpose of the new public hearing shall be to reconsider the grant of Class 'C' or Class 'D' privileges to the petitioner within the Town of Collingwood".

STATEMENT APPROVED BY CABINET

PETITION OF BREADNER TRANSPORTS LIMITED

As a result of Cabinet's requirement of a new public hearing of part (b) of the application, the certificates for the Class 'D' licence issued by the Board, insofar as they are related to part (b) of the application, are technically cancelled. The reissue of a certificate for these privileges (after the new hearing) would be acceptable to Cabinet.

The Petitioner has asked for the certificate to be altered so as to read "to and from" the respective installations and no objection has been filed by any one to the

making of this amendment. The Board is asked to consider the reissue of a certificate for Class 'D' privileges (including "to and from" the installations) accordingly.

The purpose of the new public hearing is in order that the Ontario Highway Transport Board may reconsider an application for a certificate for further Class 'C' or Class 'D' privileges within the Town of Collingwood. The Board noted the evidence from a number of shippers of dissatisfaction with high freight rates in the Town. The certificate for Class 'D' privileges did not include any shippers from the Town".

Secretary.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

Note

The use of tetracyclines during tooth development (last half of pregnancy, infancy and childhood to the age of 8 years) may cause permanent tooth discoloration (yellow-grey-brown). This reaction is more common during long-term use of the tetracyclines, but has been observed following short-term courses. Enamel hypoplasia has also been reported. Tetracyclines should therefore not be used in this age group unless other antibiotics are not likely to be effective or are contraindicated.

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p. 8 (FDA Cardiovascular Advisory Committee)

Hypertension: Fixed Combination Drugs

A fixed combination drug is not indicated for initial therapy of hypertension. Hypertension requires therapy titrated to the individual patient. Recognizing this, if the fixed combination drug meets that titrated dose of its individual components, its use may be more convenient in the management of the individual patient. The treatment of hypertension is not static; it must be re-evaluated as conditions in each patient warrant. Adapted from F-D-C Reports, Sept. 11, 1972, p.8 (FDA Cardiovascular Advisory Committee).

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 23/81.

Exemption—Ministry of Government Services—MGS-43.

Made—January 8th, 1981.

Approved—January 8th, 1981.

Filed—January 27th, 1981.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF GOVERNMENT SERVICES—MGS-43

Having received a request from the Minister of Government Services that an undertaking, namely:

The activity of demolishing 2 vacant structures located on the property known as 62 and 66 Queen Street in the Town of Sioux Lookout and legally referred to as lots 80, 81 and 82, Registered Plan M218 and lots 274 and 275, Registered Plan M220, Town of Sioux Lookout, District of Kenora,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the person indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment for an undertaking that will have no significant adverse effect on the environment, and that is required to eliminate the present concern for public safety in terms of fire hazard and vandalism at the vacant structures.

Having weighed such damage or interference against the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Minister of Government Services has informed me that adverse environmental impacts are not envisioned as part of the demolition activities and that the concern for public safety which exists as a result of the unoccupied condition of the structures would be eliminated, and

- B. The proposed undertaking merely exempts the demolition of structures on the said properties. Before the Ministry of Government Services proposes to commence another use of the site, including the proposal to construct an Ontario Government Office accommodations building, an approval would be required under the Act.

This exemption order is subject to the following terms and conditions:

1. That tenders for the demolition of the structures will be let no later than July 1, 1981, and
2. This order does not exempt any other activity, such as establishing an Ontario Government office accommodations building. O. Reg. 23/81.

THE ASSESSMENT ACT

O. Reg. 32/81.
Equalization of Assessments Made Pursuant to Section 86 of the Assessment Act.
Made—January 28th, 1981.
Filed—January 29th, 1981.

REGULATION MADE UNDER
THE ASSESSMENT ACT

EQUALIZATION OF ASSESSMENTS MADE
PURSUANT TO SECTION 86 OF
THE ASSESSMENT ACT

1. The equalization of assessments under the Act in each prescribed class of real property necessary in order to provide for each municipality specified in the Schedule to this Regulation, assessments of real property that, in accordance with section 86 of the Act, will be equitable one with the other in each prescribed class of real property shall include, as standards to be taken into account in such equalization and the computation of the factors resulting therefrom, the following considerations:
1. The proportion that the municipal and school taxes levied for the year 1980 against the total assessment of real property in each prescribed class of real property is of the total municipal and school taxes levied for the year 1980 in the municipality shall be maintained to the extent that, if that single mill rate that would have been required to produce in the year 1980 the amount of municipal and school taxes levied in that year against the total assessment of the prescribed class of real property were applied to the total assessment for that prescribed

class of real property resulting from the application of the factors hereafter in this Regulation prescribed for that class of real property in that municipality, the municipal and school taxes that would have been so levied for the year 1980 from the total assessment for that prescribed class will be substantially the same total amount for that prescribed class of real property as was actually levied in the municipality for the year 1980 against the total assessment for that prescribed class of real property in that municipality.

2. All real property within a prescribed class of real property in the same municipality shall, as nearly as may be, be assessed at the same proportion of the market value of such real property in the year 1978, as that market value is determined by the Assessment Commissioner in whose Assessment Region such real property is located.
3. The total assessment, including assessments made under section 42 or 43 of the Act, of the real property in a municipality to which this Regulation applies shall not be increased or decreased substantially.
4. Equitability of assessment of real property within each prescribed class of real property in the same municipality shall be established without significant alteration of the assessment relationships between prescribed classes of real property in the same municipality, provided that this paragraph does not apply to affect changes in the assessment relationship between prescribed classes of real property that result from an increase in the total assessment of a prescribed class of real property by reason of assessments made under section 42 or 43 of the Act. O. Reg. 32/81, s. 1.

2. This Regulation applies to the municipalities named in the Schedule to this Regulation and to the assessment to be shown on the assessment roll to be returned in each such municipality for the year 1980 for taxation in the year 1981. O. Reg. 32/81, s. 2.

3. For the purposes of this Regulation, the real property situate in each municipality named in the Schedule to this Regulation shall be divided into the prescribed classes of real property that are designated in the said Schedule for that municipality, and all real property in the municipality shall be allocated to that prescribed class of real property that most nearly describes the physical nature and characteristics of the real property. O. Reg. 32/81, s. 3.

4. For the said purposes of this Regulation, the factor to be applied to the market value, as determined in

accordance with paragraph 2 of section 1, of real property in each prescribed class of real property in the municipality shall be that shown in the Schedule to this Regulation opposite the number of the prescribed class applicable to that municipality. O. Reg. 32/81, s. 4.

5. For the purposes of this Regulation, the following classes of real property are prescribed:

CLASS 1

Property assessed either,

- (a) as residential and comprising not more than six residential units, including vacant land municipally zoned principally for residential development described in this class; or

CORPORATION OF THE TOWN OF ST. MARYS

NOTICE IS HEREBY GIVEN that the Corporation of the Town of St. Marys intends to apply to the Legislative Assembly of the Province of Ontario at a regular session to be held in 1981 for Special Legislation to provide that:

An Act respecting the Town of St. Marys, Statutes of Ontario, 1954, Chapter 129 is repealed.

Town of St. Marys By-Law No. 942, 1954, being a By-law to repeal By-law Number 10, 1895 and By-law Number 939 of the Town of St. Marys and to establish the basis of rating farm lands of not less than twenty-five acres in the Town of St. Marys, is repealed.

In 1954, the Municipal Council of the Corporation of the Town of St. Marys set a fixed rate of 45 per cent of the general rate after deducting from such general mill the exemptions and benefits granted by section 35 of *The Assessment Act*, R.S.O. 1950, Chapter 24 and amendments thereto, together with rates for debenture debts, school, and sewer purposes. The relief was granted to owners of farmlands in blocks of not less than twenty-five acres. Assessments, mill rates and farm tax reduction programs have changed over the years. The Council of the Corporation of the Town of St. Marys is of the opinion that this fixed rate for farmland is no longer equitable or fair.

If the proposed Special Legislation is enacted, the owner of such a parcel of farmland will be subject to the general mill rate, as well as the rates for debenture debt, education, and sewer purposes.

Dated at St. Marys, this 4th day of February, 1981.

Proponent: Ontario Hydro
E.A. File No. 1-79-0004-000

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above environmental assessment and/or its review by the Ontario Government, pursuant to the *Notice of Completion of Environmental Assessment Review*, dated May 30, 1980, has expired as of July 18, 1980. I received one submission and no requirements for a hearing at that date. The submission was from the proponent interpreting the conditions. The wording of several conditions have been changed slightly from that used in the review as a result of Hydro's submission and I do not consider it advisable to require the Environmental Assessment Board to hold a hearing at this time.

ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

I have considered the purpose of *The Environmental Assessment Act*, the above environmental assessment and the review, and am of the opinion that the environmental assessment is satisfactory to enable a decision to be made as to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

Accordingly, the environmental assessment is hereby accepted.

HEARING

Under Section 13 of the Act, before I, or the Environmental Assessment Board, can consider whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions, the proponent or anyone having previously made a submission under Section 7(2) of the Act on the *Notice of Completion of Environmental Assessment Review* for this undertaking, may require hearing by the Environmental Assessment Board with respect to whether approval to proceed with the undertaking should or should not be given, or should be given subject to terms and conditions.

The proponent has waived his right to a hearing on the approval of the undertaking and no other submissions were received.

APPROVAL TO PROCEED WITH THE UNDERTAKING

I have considered the purpose of *The Environmental Assessment Act*, 1975, and the environmental assessment of the undertaking as accepted by me.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions set out below.

REASONS

The reasons for giving approval are:

- (1) I received one submission and no requirements for a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated May 30, 1980. The submission was from the proponent which has waived the right to a hearing on the approval of the undertaking. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be required.
- (2) The environmental assessment together with the Government review and the conditions below sufficiently fulfills the purpose of *The Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

CONDITIONS

1. The undertaking includes the property acquisition, construction, operation and maintenance of:
 - (a) a new 230 kV single circuit wood-pole electrical power transmission line extending approximately 12 kilometres from the Elliot Lake TS to the Quirke Lake Junction; and

(b) the new access roads to the new transmission line described in (a).

2. Prior to construction, Ontario Hydro will submit to the Director of the Environmental Approvals Branch, the route and profile plans showing the locations of the structures, an aerial photograph showing the locations of access routes and the construction schedules, but will exclude technical drawings and specifications details.

Prior to and during construction, Ontario Hydro will liaise with local Ministry of Natural Resources staff in the identification of possible outstanding sensitive areas. A report outlining the proposed mitigation measures to be followed during construction, will be sent to the Director of the Environmental Approvals Branch to be filed in the Public Record for this undertaking prior to the commencement of construction in that area.

3. The proponent shall be responsible for ensuring, by site inspection and such other methods as may be required, that the construction of the undertaking is carried out in accordance with the mitigation measures referred to in Condition 2.
4. The proponent shall submit two copies of the guidelines referred to on page 22 of the environmental assessment, Section B.4 Operation of the EA, regarding the elimination and/or control of all potential effects of electrical and magnetic fields, to the Director of the Environmental Approvals Branch of the Ministry of the Environment prior to the commencement of construction. These shall be filed in the Public Record for this undertaking.
5. Ontario Hydro will co-operate with the Ministry of Culture and Recreation to determine a mutually acceptable method of identifying any archaeological resources which may sustain any negative effects from the undertaking and agree upon mitigation measures. Following this agreement, a report will be sent to the Director of the Environmental Approvals Branch to be filed in the Public Record for this undertaking prior to construction.
6. The proponent shall ensure that the undertaking is implemented in accordance with the provisions of the Protocol associated with noise levels filed by Ontario Hydro with the Ministry of the Environment as it is amended from time to time.
7. The proponent shall file copies of any amendments made from time to time to the reports referred to in Conditions 2 and 5, the guidelines referred to in Condition 4 and the Protocol referred to in Condition 6 with the Director of the Environmental Approvals Branch of the Ministry of the Environment.

CORPORATION OF THE TOWN OF ST. MARYS

NOTICE IS HEREBY GIVEN that the Corporation of the Town of St. Marys intends to apply to the Legislative Assembly of the Province of Ontario at a regular session to be held in 1981 for Special Legislation to provide that:

1. An Act respecting the Town of St. Marys, Statutes of Ontario, 1954, Chapter 129 is repealed.
2. Town of St. Marys By-Law No. 942, 1954, being a By-law to repeal By-law Number 10, 1895 and By-law Number 939 of the Town of St. Marys and

to establish the basis of rating farm lands of not less than twenty-five acres in the Town of St. Marys, is repealed.

In 1954, the Municipal Council of the Corporation of the Town of St. Marys set a fixed rate of 45 per cent of the general rate after deducting from such general mill rate the exemptions and benefits granted by section 35 of *The Assessment Act*, R.S.O. 1950, Chapter 24 and amendments thereto, together with rates for debenture debts, school, and sewer purposes. The relief was granted to owners of farmlands in blocks of not less than twenty-five acres. Assessments, mill rates and farm tax reduction programs have changed over the years. The Council of the Corporation of the Town of St. Marys is of the opinion that this fixed rate for farmland is no longer equitable or fair.

If the proposed Special Legislation is enacted, the owner of such a parcel of farmland will be subject to the full general mill rate, as well as the rates for debenture debt, education, and sewer purposes.

Dated at St. Marys, this 4th day of February, 1981.

Treasurer's Sale of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.
